I am tired of people telling retesters that they must have the “current” or “most recent” edition of the CGA pamphlets in order to be in compliance.
I don’t care what you may have been told –

THAT IS NOT CORRECT.

I don’t care if you were told this by CGA,
Your equipment manufacturer,
Even ... (yep, you guessed it!)
ANYONE telling you this is mistaken.

THEY NEED TO READ THE REGULATIONS.

Section 2 of B339 says, “*For dated references, only the edition cited shall apply...*”

C-1-2022	Methods for Pressure Testing Compressed Gas Cylinders and Tubes
C-3-2019	Standards for Welding on Thin-Walled, Steel Cylinders
C-5-2022	Wall Stress Requalification Criteria for High Pressure Seamless Steel Cylinders
C-6-2022	Standards for Visual Inspection of Steel Compressed Gas Cylinders
C-6.1-2019	Standards for Visual Inspection of High Pressure Aluminum Compressed Gas Cylinders
C-6.2-2019	Guidelines for Visual Inspection and Requalification of Fiber Reinforced High Pressure Cylinders

You may notice that my 2025 version of B339 (above) is different than yours. You may have a more recent version, or an outdated version. Here is the information from Transport Canada:
