We have received your application for renewal of DOT-SP 10277 and are processing your request. The application for renewal was not filed in a timely manner as prescribed in § 107.109(b), i.e., at least 60 days before the expiration date; therefore, if an administrative action is not completed by the expiration date your special permit may not be used after the expiration date.

We recommend that you implement a system to ensure that all applications for renewal of special permits are filed in a timely manner. A timely filing will ensure that your special permit will not expire while we are processing your request.

If you have any questions regarding this requirement, please contact the Office of Hazardous Materials Special Permits and Approvals at (202) 366-4535.

Sincerely,

for Dr. Magdy El-Sibaie
Associate Administrator for Hazardous Materials Safety
